PROJECTS

Multi-Storage Cloud Management System  | Angular, Spring Boot, SQL, Java

09-2024

- Designed and developed a web-based API for multi-cloud storage management, enabling efficient file handling across platforms. Utilized Angular for the front-end interface and Spring Boot for back-end services, ensuring seamless integration and responsiveness.
- Under the guidance of Infosys Spring Boot mentorship.

AI-Powered Waste Management Platform | TypeScript, Next.js, Web3Auth, AI

07-2025

- Developed ScrapAI , a modern web application that leverages AI for waste detection and reporting.
- Integrated Web3Auth for secure and seamless authentication, enhancing user experience and platform security.

Game Development Projects | C++, SFML04-2025

- Timber Man Game  • Pong Game 

Python Projects | Python, Pandas, NumPy, TensorFlow

08-2023 – 04-2025

- Blackjack Game  • Nifty Price Prediction System  • Image Encryption using DES  • Save Your Village 

INTERNSHIP

Mobogage Private Limited 

May 2024 – July 2024

Intern

Noida, Haryana

- Worked on a project involving Java and Java Android development, contributing to key development tasks. Gained hands-on experience with Android app development and integration using Java. Assisted in debugging and optimizing code for improved app performance.

EXTRACURRICULAR

AIESEC 

22-03-2024

Junior Manager

Bhubaneswar, Odisha

- Executed campaigns and boosted outreach.

Celesta, IIT Patna 

2025

Campus Ambassador

Patna, Bihar

- Developed a Hindi-command Discord chatbot ('adminsaeabaat') for the "Celesta-IIT Patna" server to answer FAQs and share fun facts.
- Improved accessibility by eliminating the need for English commands.
